The objective of this module is to enable the student to deal with three situations: (1) getting to a specified place, (2) asking how far away it is, and (3) finding out which means of transportation to take. The emphasis is on developing the ability to request information and to ask directions. In addition, German numbers are introduced. (AMH)

MODULE 2

INTRODUCTION

This module deals with three situations: getting to a specified place, asking how far away it is, and finding out which means of transportation to take.

Each unit contains a conversation in which you will participate. The emphasis is on developing your ability to politely request information and to ask directions. Unit 2 deals primarily with German numbers -- learning how to say them and understanding them when they are spoken to you. The exercises of each unit will enable you to accomplish these objectives. Remember to always speak loudly and clearly!
